Derek Mosher

HTML Banner Developer / Senior Designer
Las Vegas Metropolitan Area

Summary

I have 20+ years of experience working in digital as a programmer, designer, animator. My focus is on HTML5 banner advertisements, but I can do any type of social media or graphic design. I can execute ads from start to finish including creative conceiving, storyboarding, design, and layouts in multiple sizes. Post-design phase, I hand code in HTML, CSS, JS, GSAP. I excel at graphic and image optimization, typography, and motion to get the best results. Highly familiar with After Effects for occasional video effects and animations. Hand off the finished designs or ask me to do everything start to finish. I am happy to work either way. My Portfolio and Demo Reel: <https://derekmosher.github.io>

Experience

BlueAlly

HTML Banner Developer / Senior Designer
June 2025 - Present (10 months)
Las Vegas Metropolitan Area

I do design, animation, and develop HTML banners for their clients in the Google Ads 360 platform. I concept, design, animate, and code. I also design of all sorts elements for the companies needs including: print and video animation. I use PhotoShop, Illustrator, Indesign, After Effects, HTML, CSS, JS, and GSAP

Wynn Resorts

HTML Banner Developer / Senior Designer
May 2021 - September 2025 (4 years 5 months)
Las Vegas Metropolitan Area

Digital Advertising Designer, Animator, HTML Banner Programmer. Designing and programing template style banners utilizing Google Sheets to feed data and images into the ads hosted by Google Studio. So, a single ad can serve multiple messages based on targeting keys, randomization, and/or optimization. I also design ads, social media, edit video, website assets, app assets, youtube thumbnails, billboards, in Stadium displays, and print

materials. Sometimes I animate these designs in After Effects. I used HTML, CSS, JS, and GSAP

Self-Employed

HTML Banner Developer / Senior Designer / Video FX Editing

July 2019 - June 2021 (2 years)

Las Vegas Metropolitan Area

- Los York - Coded and animated HTML banner ads for clients: Garanimals and Motorola. Also helped with some design and even did some After Effects work for a TV commercial!
- Hampar Productions - I developed HTML banners for Apple One, Nature Made Vitamins. I explored multiple animation executions and created additional graphics. I also developed HTML emails.
- LMU - Animating and coding HTML banner ads.
- Super Conductor - Animating and coding HTML banner ads for Amazon and Good Reads.
- Rhythm Discovery Center - Animating, coding, and designing Elo Touchscreen kiosk for visitor learning and exploration experiences!
- Zambezi - Coded and animated HTML banners for their client Ultimate Software. I used SplitText.js to create word by word and character by character animations which helped liven up a pretty simple banner execution.
- WildLife Agency - HTML ads for Facebook Marketplace. The ads used dynamic content and a XML feed to create thousands (literally endless) of variations. Also, created HTML video ads for Lincoln Corsair served through Google Studio (DoubleClick). Further, I did some production art in Photoshop to alter the original comps and created SVG icons in Illustrator.
- Creative Impact Agency - I did design and After Effects motion graphics for social media.

YouTube

YouTube Content Creator

January 2006 - May 2021 (15 years 5 months)

Greater Los Angeles Area

I made videos for YouTube. I had over 3.8 Million views. I did reviews, how-to's, demos, creative stuff, and social media for my channel. I used After Effects, Premiere, Photoshop, GarageBand. I wrote scripts, shot video, edited video, did voice overs, acted, created graphics, created special effects, and did animation.

RED, a Division of Endeavor Global Marketing
HTML Banner Developer
April 2017 - July 2019 (2 years 4 months)
Santa Monica, CA

I worked on high profile accounts like Hulu, ESPN, Netflix, and Live Nation. I worked with javascript, gsap, node, npm, and git to build and animate static and dynamic banner ads. The executions were usually for Google Studio (DoubleClick) Also I worked in Photoshop and After Effects to assist in design and production art.

Self-Employed
Childrens Book Author / Illustrator
2017 - June 2018 (1 year)
Greater Los Angeles Area

I wrote and illustrated a children's book. All illustrations were done in Adobe Photoshop. Available in print and ebook form on Amazon. Get your copy today!!! Direct link on Amazon: <https://www.amazon.com/dp/197586946X>

The Refinery Creative
Senior HTML Banner Developer / Senior Designer
February 2016 - April 2017 (1 year 3 months)
Sherman Oaks, California

I did work for Fox, 20th Century Fox, National Geographic, DreamWorks, and Showtime. Primarily, I developed ads using html, css, javascript, Adobe Edge, and After Effects for ad platforms: Google Studio (DoubleClick), Sizemek, and Flash Talking. I also did creative conceping, design and storyboarding for ads. I used Photoshop to design. And I even turned out the occasional html email.

AvatarLabs
HTML Banner Developer / Designer
September 2015 - January 2016 (5 months)
Greater Los Angeles Area

Developed HTML5 banner ads. Hand coded in html, javascript, css, gsap, and jquery. Also timeline animated with Google Web Designer. Animated video in After Effects. Edited movie trailers and television commercials to fit various ad sizes such as 300x250, 160x600, and 728x90 dimensions.
